

Apple Bytes

July Meeting

Thursday July 19 - 7:00 PM - Room 209
Schewel Hall at Lynchburg College

Internet safety & security

David Martin of the Virginia State Police will talk about avoiding scams, identity theft, and how to insure your safety online. David is part of the Internet Crimes unit, and can get us up to speed on the latest swindles and how to avoid them.

In addition, we'll have the usual question and answer session, along with a chance to meet and greet fellow Mac users. Join us, won't you?

Next Month

Consider this a heads up: the August Applecore meeting will be in Hopwood Hall, at the other end of LC's quad. This is the building (and room!) in which we first started meeting at Lynchburg College. Our meeting location has to move in August because Schewel Hall, our current location, is needed for student check in.

It's a great time to be alive and be a Mac user

Former Mayor of Lynchburg, the late Jimmy Bryan used to say, "It's a great time to be alive and live in Lynchburg, Virginia."

Jimmy is no longer with us, but anyone who ever had contact with him can well remember how he revitalized our community with his positive message.

For those of us who have long been Mac users and stalwarts in the battle for recognition in the personal computer arena, you have to believe that once again, we are on the threshold of recognition by not only the experts and the famous, but also the business community in finally seeing what we've long known for sometime now that the Apple way is the right way in computer systems, hardware and way of thinking and it truly is "a great time to be a Mac user."

Recently, there are a growing number of converts of media writers who have begun to jump on the Mac bandwagon as never before who either finally seen the light that ours is the right way or are willing to admit that they have been using Macs for years to get their jobs done and now want to swim upstream against status quo, computer mainstreamists or business dimwits to make their jobs easier, have more fun using their computers and to do a better job.

Schewel Hall

Eliot & Rosel Schewel Hall is the new name for what was originally Centennial Hall, located between the campus library and the chapel, with parking behind and beside. To drive there most directly, you will probably want to use the LC main gate as a reference. This is located off Lakeside Drive, and however you get there, DON'T turn into the main gate.

There is a traffic light on Lakeside about 50 yards from the LC drive, and if you reach the LC drive first, continue to the traffic light and turn right there instead.

If you are on lakeside and reach the traffic light BEFORE you get to LC's drive, turn left at the light. If you reach the light from Old Forest Road instead of Lakeside Drive, go straight at the light.

All these will run you alongside one of LCs athletic fields, and you will want to turn right at the first opportunity. That street goes uphill behind the college chapel, and if you turn right again when forced to do so, just after passing the back of the chapel, you'll find yourself headed for one of the parking lots between the chapel and Schewel with the latter on your left. You can also park behind the chapel, although there is a little bit of hill to climb, and there is a small parking lot across the street behind Schewel Hall. If worse comes to worst, it is also possible to park on the far side of the library, on down the street behind Centennial Hall. Room 209 is at the very end of Schewel Hall next to the chapel.

Here are the latest opinions in a growing stream of support for what we've long known.
